## **Report on Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133**

To the Board of Directors  
University of Georgia  
Research Foundation, Inc.  
Athens, Georgia

### **Compliance**

We have audited the University of Georgia Research Foundation, Inc.'s (the "Foundation") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Foundation's major federal programs for the year ended June 30, 2010. The Foundation's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Foundation's management. Our responsibility is to express an opinion on the Foundation's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Foundation's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Foundation's compliance with those requirements.

In our opinion, the Foundation complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

### **Internal Control over Compliance**

Management of the Foundation is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Foundation's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above.

#### **Schedule of Expenditures of Federal Awards**

We have audited the basic financial statements of the Foundation as of and for the year ended June 30, 2010, and have issued our report thereon September 22, 2010. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of expenditures of federal awards and the information presented in Exhibit I are presented for the purpose of additional analysis as required by OMB Circular A-133 and are not a required part of the basic financial statements. This schedule is the responsibility of the management of the Foundation. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects when considered in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Directors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

*Cherry, Bekant & Holland, L.L.P.*

Augusta, Georgia

December 13, 2010, except for paragraph entitled **Schedule of Expenditures of Federal Awards**, as to which the date is September 22, 2010.

## Notes to the Schedule of Expenditures of Federal Awards and Supplemental Schedule

**For the Year Ended June 30, 2010**

### **Note 1 - Basis of presentation**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the University of Georgia Research Foundation, Inc.'s subrecipient, the University of Georgia, and is presented on the cash basis of accounting. Expenditures under award programs are shown on the cash basis of accounting in the Foundation's financial statements.

The purpose of the Schedule of Expenditures of Federal Awards is to present a summary of the activities of the Foundation for the year ended June 30, 2010, which have been financed by the United States Government.

Because the Schedule of Expenditures of Federal Awards presents only a selected portion of the activities of the Foundation, it is not intended to and does not present either the financial position, changes in fund balances, or cash flows of the Foundation.

### **Note 2 - Subrecipient**

The Foundation provided federal awards to the University of Georgia as a sub-recipient.

### **Note 3 – Non-cash awards**

The University of Georgia Research Foundation, Inc. did not receive any non-cash federal awards during the year ended June 30, 2010.

### **Note 4 – Catalog of Federal Domestic Assistance (“CFDA”) Numbers**

CFDA numbers that are available for each federal award program are indicated on the supplemental schedule of governmental, restricted accounts by agency at Exhibit I.

### **Note 5 – Contingencies**

These award programs are subject to financial and compliance audits by grantor agencies. The amount, if any, of expenditures that may be disallowed by the grantor agencies cannot be determined at this time, although the Foundation expects such amounts, if any, to be immaterial.

### **Note 6 – State funds**

The State receives awards directly from the federal government and supplements those funds with its own funds. The State then awards a combination of federal and state funds to the Foundation. If the Foundation is unable to determine the federal portion, the entire amount is reported on the Schedule of Expenditures of Federal Awards.

**University of Georgia Research Foundation, Inc.**

**Schedule of Findings and Questioned Costs**

**For the Year Ended June 30, 2010**

**Section I. Summary of Auditor,s Results**

**Financial Statements**

Type of auditor’s report issued: Unqualified

Internal control over financial reporting:

- Material weakness(es) identified?                    \_\_\_ yes      X no
- Significant deficiency(ies) identified?                 \_\_\_ yes      X none reported

Noncompliance material to financial statements noted?         \_\_\_ yes      X no

**Federal Awards**

Internal control over major federal programs:

- Material weakness(es) identified?                    \_\_\_ yes      X no
- Significant deficiency(ies) identified?                 \_\_\_ yes      X none reported

Type of auditor’s report issued on compliance  
for major programs: Unqualified

Any audit findings disclosed that are required to  
be reported in accordance with Section 510(a)  
of Circular A-133     \_\_\_ yes      X no

**Identification of Major Programs**

The programs tested as major programs of the University of Georgia Research Foundation, Inc. included:

<u>CFDA #</u>	<u>Name of Federal Program</u>
Listed by CFDA number in Exhibit I	Research and Development Cluster

The dollar threshold for Type A programs was \$3,000,000

The University of Georgia Research Foundation, Inc. qualified as a low-risk auditee.

**Section II. Findings in relation to the Audit of the Financial Statements**

None reported.

**Section III. Federal Awards Findings and Questioned Costs**

None reported.

**The University of Georgia Research Foundation, Inc.**  
**Exhibit I**  
**Supplemental Schedule of Governmental, Restricted Accounts by Agency**
