<sup>1</sup> Academic Department is the department where an investigator's salary line and academic appointment is held. The dollar amount listed here is derived directly from the percent credit identified by investigator(s) on the Proposal Transmittal Sheet.

<sup>2</sup> Persons with split academic appointments may attribute academic credit to more than one department. Check lists under all relevant departments and centers/institutes to see the credit inventory for a given investigator.

<sup>3</sup> If the percentage in the Credit Column is less than 100%, the identified faculty member may be a co-investigator, and is not necessarily the principal investigator.

<sup>4</sup> Negative numbers reflect budget reductions from previous years.

**2009 Licensing & Intellectual Property Protection Summary**  
**& Five-Year Summary**

Fiscal Year	Invention Disclosures Received	U.S. Patent Applications Filed	U.S. Patent Applications Issued	Total Options and Licenses Executed	License Income
2005	100	53 <sup>1</sup> (95)	20 <sup>2</sup>	84	\$12,976,205
2006	112	55 (94)	13	85	\$15,133,783
2007	112	68 (98)	18	125	\$16,156,819 <sup>3</sup>
2008	111	61 (102)	33	130	\$24,128,536
2009	133	74 (111)	18	112	\$30,531,425 <sup>4</sup>

**This summary is determined by using the definitions of the Association of University Technology Managers (AUTM) Annual Licensing Survey.**

<sup>1</sup> Starting with AUTM 2005 Licensing Survey, “Applications Filed” was changed to mean only the first application for an invention. Prior to 2005 the AUTM Survey “Applications Filed” included continuation and divisional patent applications which are applications filed as derivatives of earlier patent applications.

<sup>2</sup> The definition of “Patents Issued” changed with the 2005 AUTM Survey in the same manner as described in footnote <sup>1</sup>.

<sup>3</sup> According to the AUTM 2007 Licensing Survey, UGA ranked 11<sup>th</sup> among U.S. public universities and 20<sup>th</sup> among all U.S. universities in total licensing revenue and 3<sup>rd</sup> among the top 20 U.S. university technology transfer programs in total number of option and license agreements.

<sup>4</sup> This figure may be subject to auditor’s adjustment.
